About Our Event!

- Many families find themselves balancing the needs of growing children while also supporting aging parents—often quietly, and often without enough support.
- Partnership for Awareness invites you to an in-person community program featuring Christy Byrne Yates, M.S., LEP, Licensed Educational Psychologist, author, and caregiver, who brings both professional expertise and lived experience to this timely conversation.
- Drawing from her book *Building a Legacy of Love: Thriving in the Sandwich Generation*, Christy will explore the realities of caregiving across generations, including anticipatory grief, navigating difficult conversations, and why self-care is essential—not optional.
