# “ GEN Z UNFILTERED ”

Youth born during Generation Z (those born in the late 1990s and early 2000s) are living a new narrative. While they are the most socially connected and most educated generation in history, they are the loneliest generation and least experienced when entering the workforce. They are now the most anxious youth population in human history.

The best chance of their success starts with adults understanding them, believing in them and helping them achieve their ultimate potential.

Dr. Tim Elmore, a generational expert in leadership development and CEO of Growing Leaders nonprofit, will discuss concepts from his book, "Generation Z Unfiltered: Facing Nine Hidden Challenges of the Most Anxious Population."

Dr. Elmore will also be speaking at both Huntington Middle School and San Marino High School during student assemblies while visiting San Marino.
